# Logging in to Clever

Students can access Clever through their district-issued iPad, as well as other Internet-connected devices.

iPad Access: Students access Clever through an app using their login credentials (user name is their student I.D. and their password starts with the first few letters of their last name, followed by a set of numbers). If you are using a district-issued iPad, skip down to **STEP ONE**.

Home Device Access: Students access Clever through a link on the Santee School District Webpage. To do this, they first go to www.santeesd.net, select "Student Resources," and then click on "Clever Learning Portal." From there, your child uses his/her login credentials to access the program.

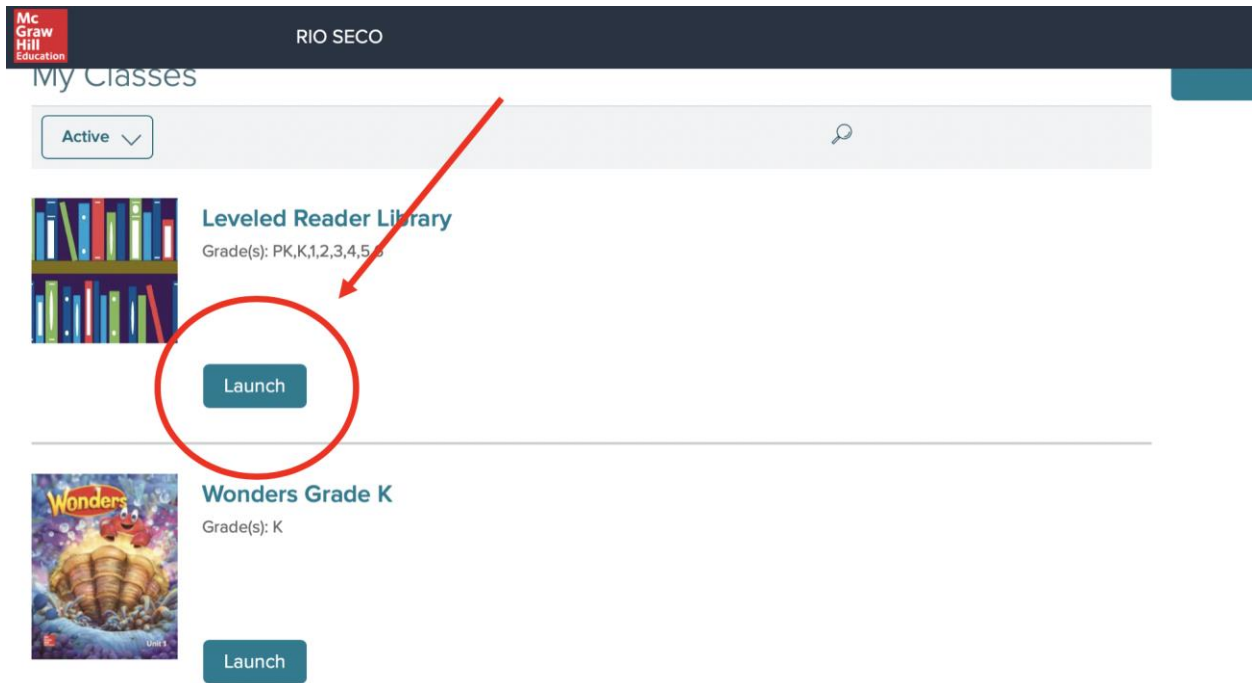

STEP ONE: Once you are logged into Clever, select the McGraw-Hill app (the list of apps you see in your child's screen may not match those in the screenshot below).

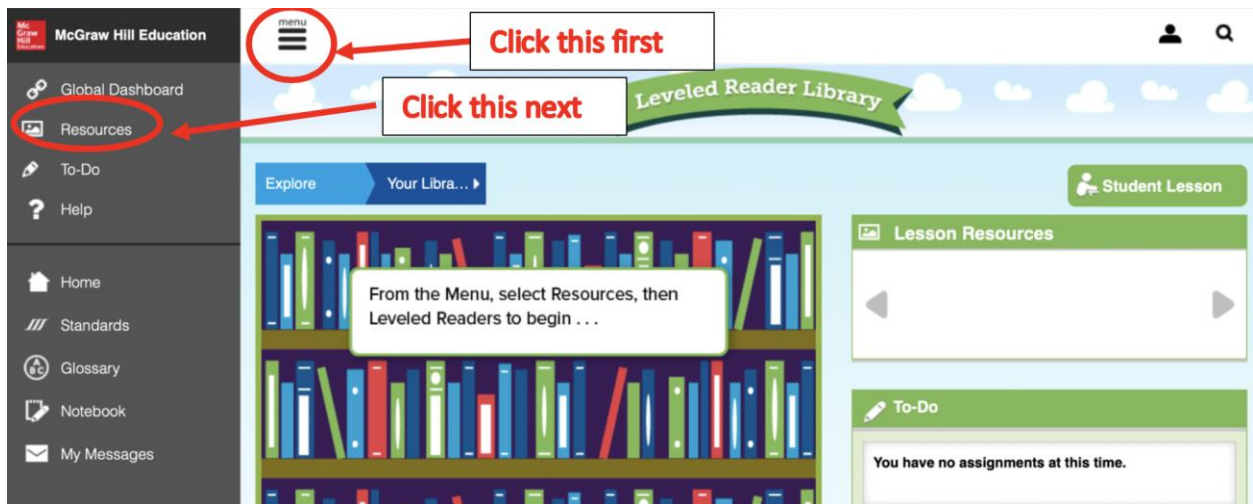

Continued on the next page…
STEP TWO: Once in McGraw-Hill, select the "launch" button for the Leveled Reader Library.

STEP THREE: Select the menu (the three lines) and you will see a menu list on the left hand side of the screen. From there, select "Resources."

STEP FOUR: Now, select your child's grade level from the drop down menu on the left and then select whichever book you wish for your child to read (you may have to disable the pop up blocker on your Web browser to launch the first book).
